Subfile: C

Title: Automatic banking machine dispenses machine-readable documents
Abstract: Describes **dispensing** pre-encoded magnetic stripe documents in place of one denomination of bills by an automatic teller machine. The value of the magnetic stripe document **dispensed** would be of a prerecorded value and would then be charged to the recipient's account by the bank, avoiding the need to handle **cash**. Another application for an automatic **teller machine** which issues magnetic stripe **documents** is to issue temporary credit cards to new customers for use during that interval until ...
